

Dave Pagurek van Mossel

University of Waterloo Software Engineering, class of 2019

Work

Software Engineering Intern at **Remind** San Francisco, California, Sept-Dec 2016

- Designed and implemented a REST API for district management, efficiently querying the graph of districts, schools, and users
- Developed features for backend Ruby and Go payments services, plus accompanying client work in React and Redux

Software Developer Intern at **Athos** Redwood City, California, Jan-Apr 2016

- Created a C++ library for defining signal processing pipelines by parsing a JSON-based language definition into a tree of filters, allowing variable scoping and mapping over lists
- Developed infrastructure and UI features in Objective C and Swift to allow users to run through athletic training plans and receive a score calculated from garment sensor data

Software Developer Intern at **Shopify** Ottawa, Canada, May-Aug 2015

- Developed Ruby scripts to transform and load sales data from sharded MySQL databases into central MySQL and Postgres databases on Amazon Web Services
- Introduced new language constructs in the Shopify Query Language parser allowing granular querying of data in Go and Ruby
- Awarded finalist in Shopify Hack Days with an iOS app version of the Shopify home feed in React Native

Projects

Raytracer, 2016

A 3D renderer written in Swift

- Organized the rendering of images into a multithreaded map and reduce over multiple render passes
- Implement soft shadows, depth of field blur, refractive surfaces, and probability distribution-based motion blur

Kandinsky, 2016

A declarative language for programming generative art

- Wrote a grammar to express visual components, using a decoration pattern for transformations and compositions
- Compiled syntax nodes to functional Javascript for dynamic SVG generation

Scala compiler, made for CS241E, 2015

A tool written in Scala to compile a subset of Scala into MIPS instructions

- Parsed input into an AST for the Scala grammar to compile
- Implemented closures, tail recursion, type checking, and garbage collection

Pluto, 2015

A home automation system and control panel for the Raspberry Pi

- Constructed music playlists based on who is in the house by having users tap an NFC tag to an Android phone to sign in or out

Open-source contributions, 2015-present

- Contributed bug fixes and features to **Radiant Player**, a **Facebook Messenger Mac client**, **Vim Auto-Pairs**, and **Emerald language**

About

Programmer, web developer, digital artist, and Regular Expression enthusiast

- dave@davepagurek.com
- davepagurek.com
- github.com/davepagurek
- (613) 875-4951

Skills

- Demonstrated expertise with **Ruby** and functional **JavaScript**
- Extensive experience with **C++11**, **Go**, **Swift**, **Perl 6**, **SQL**, **Git**, and **Unix**
- Highly proficient with CSS layout models and experience writing performant animations
- Passion for creative approaches to visual and algorithmic design problems

Awards

- First place in Waterloo EngHack, both fall and winter 2015
- University of Waterloo President's Scholarship, 2014
- Top 25% distinction on the Canadian Computing Competition, senior division, 2013 - 2014
- Jerry Dermer Memorial Prize in Engineering, 2014
- Ottawa-Carleton District School Board Silver Medal, 2010-2014

Leadership

- Organizer, **TerribleHack I - IV**, a hackathon for programming for its own sake rather than for a practical purpose, 2015-16
- Organizer, **Tech Retreat**, a hackathon for high school students, 2015-16
